FOR IMMEDIATE RELEASE  
Date: 16<sup>th</sup> February 2017

### TOP SAFETY ACCREDITATION FOR ALLIANCE Alcumus SafeContractor

Alliance Technical Building Services Ltd (aka Alliance) has been awarded accreditation from Alcumus SafeContractor for achieving excellence in health and safety in the workplace.

Alcumus SafeContractor is a leading third party accreditation scheme which recognises extremely rigorous standards in health and safety management amongst contractors. It is used by thousands of organisations in the UK including SMEs and FTSE 100 companies.

Alliance's application for SafeContractor accreditation was driven by the need for a uniform standard across the business. SafeContractor accreditation will enhance the company's ability to win new contracts, and its commitment to safety will be viewed positively by its insurers when the company liability policy is up for renewal.

Gemma Archibald, Director of Alcumus SafeContractor said: "More companies need to understand the importance of adopting good risk management in the way that Alliance Technical Building Services has done. The firm's high standard has set an example which hopefully will be followed by other companies within the sector."

Alliance's Operations Director, Matthew Thomas, added "not only has this given the company a highly-regarded safety accreditation, but the audit process in itself has allowed us to streamline and enhance our safety systems and I would defiantly recommend it for that in any event."

Alliance Technical Building Services (aka Alliance) is a Midlands based Building Services contractor offering Mechanical & Electrical consultancy & design services, installation, and aftercare on commercial, health, and education projects throughout the UK.
